## ACKNOWLEDGEMENT

The completion of this project work is the outcome of six month challenging, yet rewarding journey. First and foremost I pay my enormous indebtedness to my research supervisor, Dr. Tripti Wadwa, for being constant source of motivation. Her immense zeal towards study, punctuality, unflinching support, innovation suggestion and constructive criticism fosters the one of perfection in me and helped me to do better than the best.

I appreciate the friendship and unconditional support of my friends, among whom Mrs. Gournyadep Bhattacharjee deserve special mention, who made my journey enjoyable. They indeed stood by me whenever there was a need.

Last but not the least, I want to express my conscientious gratitude to Almighty for always being with me and guiding me through the right track.
